HYBRIDS

# YIELDS

## IN EVERY GROWING CONDITION AND PROTECTS WHEN THERE'S A DROUGHT

Choose the yield advantage of DroughtGard<sup>®</sup> Hybrids technology corn products, and be prepared for drought when it happens. There's no need to sacrifice yield potential for drought tolerance with DroughtGard<sup>®</sup> Hybrids, which contain the first and only drought-tolerant biotech trait.

**See how the science works at [DroughtGard.com/Video](http://DroughtGard.com/Video)**

Growing conditions can be defined as those in which temperature, light and water, among other inputs, are suitable for plant growth.

Individual results may vary. Always read and follow IRM, grain marketing and all other stewardship practices and pesticide label directions for Corn-Growing Areas. Roundup Ready<sup>®</sup> crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup<sup>®</sup> brand agricultural herbicides. Roundup<sup>®</sup> brand agricultural herbicides will kill crops that are not tolerant to glyphosate. B.t. products may not yet be registered in all states. Check with your seed representative for the registration status in your state. DroughtGard<sup>®</sup>, RIB Complete and Design<sup>®</sup>, RIB Complete<sup>®</sup>, Roundup Ready 2 Technology and Design<sup>®</sup>, Roundup Ready<sup>®</sup>, and Roundup<sup>®</sup> are trademarks of Monsanto Technology LLC. LibertyLink<sup>®</sup> and the Water Droplet Design<sup>®</sup> are registered trademarks of Bayer. Respect the Refuge and Corn Design<sup>®</sup> and Respect the Refuge<sup>®</sup> are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. ©2017 Monsanto Company.
