

BioRISE²

CORN OFFERING

Acceleron[®] B-300 SAT + Acceleron[®] B-360 ST
Dual action bio-enhancer offering containing *Penicillium bilaiae* and
LCO SP104 (Lipo-chitooligosaccharide)

How the Offerings Works

Increases phosphate availability and stimulates mycorrhizal spores

Enhances mycorrhizal colonization, which:

Increases functional root volume

Can increase water & nutrient uptake through the roots

Acceleron[®] Seed Applied Solutions BASIC

Acceleron[®] Seed Applied Solutions BASIC + BioRISE[™] 2 Corn Offering

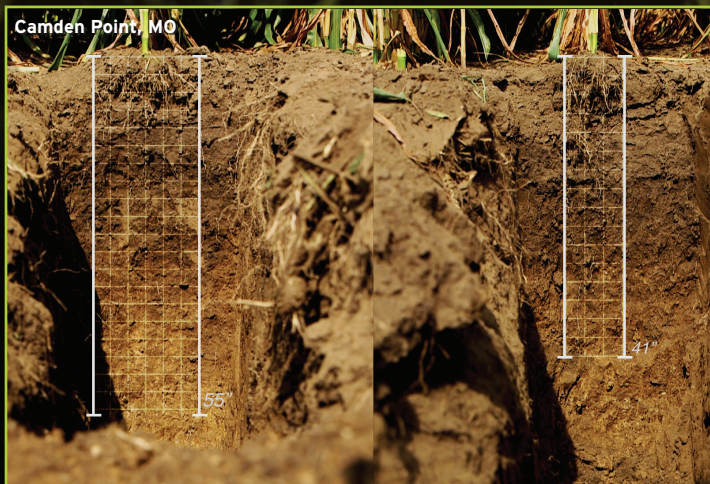

BioRISE[™] 2 Corn Offering is included in all class of 2017, 2018 and 2019 base genetics.**

BioRISE™ 2

CORN OFFERING

BioRise™ 2 Corn Offering** is included in all class of 2017, 2018 and 2019 base genetics.

Acceleron® Seed Applied
Solutions BASIC +
BioRise™ 2 Corn Offering

Acceleron® Seed Applied
Solutions BASIC

Performs in Various Conditions

High-Yielding Environments

Helps reduce intra-field variability on high-yielding acres

Productive Mid-Yielding Environments

Helps deliver strong yield potential consistently in average-yielding environments

Stressed Environments

Helps minimize the impact of stress from drought or nutrient deficiency

****BioRise 2 Corn Offering** is the on-seed application of the separately registered seed applied products Acceleron® B-300 SAT and Acceleron® B-360 ST. **Performance may vary** from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields. **FOR CORN, EACH ACCELERON® SEED APPLIED SOLUTIONS OFFERING** is a combination of separate individually registered products containing the active ingredients: **BASIC** Offering for corn **without** SmartStax® Technology: metalaxyl, prothioconazole, fluoxastrobin, and clothianidin. **ELITE** Offering for corn **without** SmartStax® Technology: metalaxyl, and clothianidin; prothioconazole and fluoxastrobin at rates that suppress additional diseases. **Always read and follow IRM, where applicable, grain marketing and all other stewardship practices and pesticide label directions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Please visit <http://acceleronsas.com/stateapprovals> regarding the approval status of Acceleron® B-360 ST for application to seeds in your state.** Acceleron® and BioRise™ are registered trademarks of Monsanto Technology LLC. ©2018 Monsanto Company All Rights Reserved
