

EXPECTED SOON

You don't tolerate weeds. That's why our XtendFlex® soybeans* (expected soon) will feature triple-stack herbicide tolerance to provide farmers like you with yet another option to help control the most challenging weeds.

Xtend Your Flexibility. Xtend Your Weed Control.

- › Built on Roundup Ready 2 Xtend® technology, farmers can continue to count on the high-yielding performance they've come to expect at harvest.
- › **Featuring the additional tolerance to glufosinate**, farmers will have their choice of three effective herbicides to support the way they manage their fields' unique weed challenges.

"The biggest advantage I see with the three herbicide options is definitely the flexibility... Having that additional over-the-top option is big."

– Ben Buesing | Stewarded Ground Breakers® Field Trial participant

"When you look at the pod count that's on these and look at the size and development... I would think we could have a record yield on this farm."

– Frederick Helms | Stewarded Ground Breakers® Field Trial participant

Learn more about XtendFlex soybeans at RoundupReadyXtend.com/XtendFlex

***Commercialization of XtendFlex® soybeans is dependent on multiple factors, including successful conclusion of the regulatory process. The information presented herein is provided for educational purposes only, and is not and shall not be construed as an offer to sell.**

Soybeans with XtendFlex® Technology contain genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Glufosinate will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Monsanto Technology Use Guide for recommended weed control programs.

XtendiMax® herbicide with VaporGrip® Technology is part of the Roundup Ready® Xtend Crop System and is a restricted use pesticide.

ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. XtendiMax® herbicide with VaporGrip® Technology,

Roundup Ready 2 Xtend® soybeans and products with XtendFlex® Technology may not be approved in all states and may be subject to use restrictions in some states. Check with your local product dealer or representative or U.S. EPA and your state pesticide regulatory agency for the product registration status and additional restrictions in your state. For approved tank-mix products and nozzles visit XtendiMaxApplicationRequirements.com.
